The Mueller Report mentions numerous people, including both subjects and sources.^{[1][2]} Some people are only identified by their surname (e.g. "Schultz" for Eric Schultz), their job role (e.g. "Flynn's counsel" for Rob Kelner), twitter handle, email address, or other generic language (e.g. "the woman" for Stephanie Clifford). Many of the full names of the partially or indirectly identified individuals are included here with citations establishing their identities.

The report contains numerous citations for news articles reporting on the pertinent subject matter where they are cited. People mentioned in the article titles are included. The report names one or more authors with many of the article citations, so those author's names are included here as well. Where possible, citations with links to the articles mentioned in the report are included.
